

Italcementi Group in Turkey

PRODUCTION FACILITIES

| | |
|-------------------------|----------------------|
| Company | Afyon Cimento |
| Cement plants: 1 | Afyon |

(as at 25.03.2010)

Italcementi Group operates today in Turkey through Afyon Cimento with one cement plant.

The Group entered the Turkish cement market in 1989 through the acquisition of Set Group. This operation was the biggest one-time foreign capital investment realized in the country at that time.

At the beginning of 2011 Italcementi sold Set Group to Limak Holding; Afyon Çimento was not included in the perimeter of the transaction.

The cement plant, located in the western Turkey, is ISO 9001:2000 certified. Afyon Çimento is listed on the Istanbul Stock Exchange.
